

## Environmental Summer Students

We are currently looking for **Environmental Summer Students** to join our growing team. This is a hybrid role working from home, the downtown Edmonton office, and performing field work in various conditions throughout Alberta.

### Who are we?

Carson Integrated is a well-respected consulting firm of natural resource management professionals who provides environmental, forestry, and GIS consulting services to clients in the Upstream Oil & Gas, Pipeline, Sand & Gravel, Electrical Utility, and Forest industries throughout Alberta. Our team advocates for our diverse client base that provides distinct opportunities exceptional challenges, and a work environment rich in variety.

### Why work with us?

People are our greatest asset! Because of this, we are committed to developing our employees by providing ongoing training opportunities and rewarding performance that exceeds expectations. Our team is made up of a group of people who are friendly and thrive in a busy (and sometimes unpredictable) work environment. Our team members are fearless and unafraid to face and overcome new challenges. Not only do we work hard, but we like to have a good time at events like our infamous annual Bocce tournament or having drinks together at the end of a busy week. We provide our employees with a progressive, flexible, and collaborative work environment, encouraging an entrepreneurial approach to business coupled with the opportunity for success. At Carson Integrated, our people are part of a larger team of diverse professionals committed to excellence.

### Some things you will be responsible for:

To be successful as an Environmental Summer Student at Carson Integrated, you will have experience with most of the skills below and be eager to learn and develop the ones you are missing.

- As part of a crew, conduct pre-disturbance site assessments including wetlands assessments, vegetation and ecosite delineation, basic soils surveys, identification of wildlife features, watercourse classification and crossing assessments, noxious weeds surveys, and merchantable timber volume assessments.

- Assist with compiling regulatory and environmental approval documents including but not limited to, Conservation Operation and Reclamation Plans, Application Supplements, Water Act applications, Temporary Field Authorizations, Wetland Assessment and Impact Reports/Forms, COP Notifications, and Mitigation Plans.
- Conduct historical environmental, regulatory, and land use reviews.
- Assist with the preparation of timely and accurate technical reports and plans.
- Must have the ability to travel and perform fieldwork.

#### Experience and skill set to thrive as an Environmental Summer Student:

- Enrolled in a Bachelor's degree or technical diploma in Environmental Science, Biological Science, or Environmental Planning
- Experience with regulatory approvals in the oil and gas industry is an asset
- Previous field experience is an asset
- Basic understanding of the federal and provincial legislation and regulatory requirements in Alberta
- Strong organizational skills
- Excellent report writing skills
- Superior problem-solving skills
- Strong communications skills
- Meticulous attention to detail
- Provide a proactive, solutions-based approach to completion of tasks

If you are a self-learner, a team player, a problem solver, a self-starter, and have a desire to thrive and grow in an environment rich in variety then email us your cover letter and resume to [jobs@carsonintegrated.com](mailto:jobs@carsonintegrated.com)

We thank all candidates for their application; however, only candidates selected for an interview will be contacted.
